

Briefkasten

Hardware

Ich kann euch hier nur den [Aqara Fenster Kontaktsensor](#) empfehlen da dieser wirklich günstig und gut ist.

Software

Du benötigst folgendes aus HACS:

- Mushroom
- Mushroom Templates

Der Button zum anzeigen bzw. löschen der Briefkastenmeldung:

```
type: custom:mushroom-entity-card
entity: input_boolean.post
tap_action:
  action: call-service
  service: input_boolean.turn_off
  data: {}
target:
  entity_id: input_boolean.post
confirmation:
  text: Briefkasten geleert?
secondary_info: last-updated
icon_color: yellow
```

Automation:

alias: Benachrichtigung Post

description: ""

trigger:

- type: opened
- platform: device
- device_id: 0d645b52a4bb04f517b43aa47b037a07
- entity_id: binary_sensor.lumi_lumi_sensor_magnet_aq2_on_off
- domain: binary_sensor

condition:

- condition: state
- entity_id: input_boolean.post
- state: "off"

action:

- service: input_boolean.turn_on
- data: {}
- target:
 - entity_id: input_boolean.post
- if:
 - condition: state
 - entity_id: group.presence_home
 - state: home

then:

- service: notify.alexa_media
- data:
 - target:
 - media_player.buro
 - media_player.kuche
 - media_player.wohnzimmer
 - media_player.badezimmer
 - media_player.schlafzimmer
 - type: announce
 - message: Die Post ist da!

else:

- service: notify.all_devices
- data:
 - message: Post ist da!
 - title: Briefkasten

mode: single
